SATURDAY, FEBRUARY 19, 1881.

A new paper, El Derecho, has been established at Panama. Politics liberal.

Truckee Republican: U. S. Fish Commissioner, J. A. Richardson, of San Leandro, has placed 100,000 Lake Michigan white fish in Donner Lake.

A new steamship line will soon be running between New Orleans and London. It will consist of 15 steamers, one steamer will leave New Orleans each week.

The most severe accident which occurred on a Peruvian railroad for years past took place in Chorrillos Station, Lima, December 2d. The cars were telescoped and five men were killed.

The Chicago Tribune maintains that the British ought to conquer and utterly subdue the Boers of Transvaal in the interest of civilization, and claims that the Boers are the most brutal of all known slave-holders and slave-hunters.

The students at the college of Uruguay at Entre Rios, lately assailed the Bishop of Panama on account of some remarks made by him during a sermon on the tendencies of the age. He was severely handled before he escaped to his carriage.

A Vallejo man consulted a lawyer upon the feasibility of procuring a divorce from his wife on the ground of "infidelity." Asked what evidence he had, he produced some of Bob Ingersoll's works which he said his wife was in the habit of reading.

Bob Ingersoll does not believe in a hell, but he lives a life that would bring him to it were there one. Many a man who would ostracize the gifted infidel for his disbelief in this place of torment, is treading along the broad highway that leads straight to it.

The city of Iquique, Peru, is being rapidly rebuilt, and a person would scarcely recognize it as the same which flourished in former times under Peruvian rule. The Itata arrived on the 5th of January, with 100 prisoners taken by the Chileans in the neighborhood of Lurin.

A young woman recently went to an English fancy ball as a powder puff. It must have been a puff ball. And this reminds us that a young man once went to an American ball as a rifle. No one guessed what character he represented until he went off "half cocked," and staggered against a man who called him a "son of a gun."

It now transpires that some 500 Celts are fighting in the Boer army against the British. The Irish might, in time, be able to conquer their oppressors through the medium of the Boers. In this happy event, the question of dividing the fat offices with their allies would become a question of considerable importance.

John Bull is having a lively time with the sturdy Boers. So far the English have not won a single fight, yet as long as the dispatches to the London Times announces English victories, the delighted of Londoners cheer for the Dragon of St. George. They will not realize the facts until their shattered army comes home.

The Gold Hill News makes the sensible suggestion of a change in the election law, so that there will be a polling place for every three hundred voters. It makes a note of the fact that San Francisco, with a vote of 40,000, knows the result of its elections about three days sooner than the people of Storey county realize who is to be the next Mayor of Virginia city.

The mining editor of the San Francisco Post has a cheerful word for the old Comstock lode. He says: We want to put ourselves on record as predicting that we shall again have great revivals and great rises in the Comstock market despite the gloomy feeling now apparent. Scores of fortunes will be made by men of means who make judicious ventures in the shares in times of great depression.

They are having a very heavy snow storm in Chicago and northern Illinois. Despatches of Thursday at midnight from Chicago say: Since 8 o'clock this morning nearly five inches of snow has fallen, are still coming down at the rate of an inch or two an hour. It is compact and lies where it falls, and will prove a great hindrance to railroad and foot travel, coming as it does upon other heavy snows which have covered the ground almost without interruption since the middle of last November. This heavy fall is quite remarkable. The air is cool and crisp, with no signs of a thaw.

Hank Monk, the historic stage driver of the Sierras, is reported ill at Carson. The Boers have been reinforced by a large body of men under Pretorius. The Boer army now surrounding Newcastle is estimated at 3,000 men.

In consequence of Russia's advance on Herat by river and valley, Ayoub Khan has declared war against the Ameer, and has already occupied Maimdun.

Parnell told Victor Hugo, Thursday, that though an Irish insurrection would be legitimate, the League had been dissuaded from such an attempt, as the Irish people are unarmed.

Senator Conkling arrived at Mentor on Wednesday afternoon. The dispatch says he got a "warm" reception at Garfield's house, and had several hours' confidential talk. Conkling took the midnight train East.

Parnell, O'Kelly, Brennan and Sexton arrived in London from Paris Thursday night. The Home Rule members have resolved, in consequence of the action of the government on the subject of coercion, to vote with the Conservatives on all questions not relating to Ireland.

A heavy snow storm prevails in Vermont. No heavier snow storm has ever been known in that section. It extends as far west as Ottumwa, and fears are entertained of another railroad blockade, although the wind is not blowing strongly. All of the trains left here nearly on time.

Diamond Cut Diamond.

Suit has been commenced by Henry Von Hassel against Fielding Burns. The former sets forth in his complaint that on the 1st of January, 1870, he was duly married to Elizabeth Von Hassel, and that on the 8th of April, 1878, his wife commenced an action of divorce against him, which is still pending. On the 23rd of April, 1878, while the divorce suit was pending, defendant persuaded plaintiff to convey to him the community property belonging to him and his wife for safe keeping, and to prevent an equal division of the same between him and his wife by the Court in the event of the granting of the divorce. Plaintiff alleges that when defendant made the above representations he was acting in behalf of and in collusion with plaintiff's wife, for the purpose of obtaining the removal of the property beyond the jurisdiction of the Court and to keep it for the sole benefit of plaintiff's wife. The plaintiff claims that the conveyance by him to defendant was not binding, or legal, hence he demands that the Court cancel and nullify the deed of conveyance.

Those Audacious Americans.

What has happened to Johnny Bull, that he is in such a chronic state of nervousness? The latest and most absurd canard, originating in London, is that 500 American adventurers had gone to join the Transvaal Boers. Just how they went, and in what way they were to reach Transvaal, is not stated; but British terror is now so unreasoning that we should not be surprised if a balloon were believed to be the mode of conveyance adopted by those audacious "Americans." Seriously, it is pitiable to think that a great nation should display such nervousness at the shadow of impending danger. England has only herself to thank for her South African reverses. It was her own doing; and her campaign against the Boers is the most indefensible of the many wars she has recently been engaged in.

The Grand Jury of the State Circuit Court, at Portland, Oregon in their report a few days ago, made reference to the existence in that county of leprosy, and of the keeping of five Chinese lepers on the poor farm. They condemned the manner in which these unfortunate persons are kept, and recommended their removal from the State, calling, at the same time, the attention of the County Judge and Commissioners to the matter. The proper authorities propose to take action. As soon as some vessel sails from that port direct for a Chinese port, passage for these lepers will be procured and they will be sent back to the Flowery land.

The public have always been lacking confidence in pawnbroker's shops, from the fact that they were here to-day and away to-morrow, they having no regard for the patronage of their customers, merely trying to take advantage whenever they could. We must note one exception in California, and that is the establishment of Uncle Harris, the celebrated pioneer, No. 221 Kearney street, between Bush and Sutter.

Three Chinamen applied for naturalization in Chicago on Wednesday. General Hancock has signified that he will participate in the inaugural ceremonies of President Garfield.

The City Council of Denver last Thursday night accepted a proposition to light the entire city by the Brush electric light.

A woman at Grass Valley, Cal., has hysterics because her husband drinks, and her husband drinks because his wife has hysterics.

Another suit, with Senator Edmunds as leading counsel, has been brought in New York against the consolidation of the different telegraph lines.

An Assemblyman of California, has introduced a Sunday bill which would make it a misdemeanor to kill a cat on Sunday. He is an enemy of mankind.

One of the three old craters at the south end of Mono lake has been industriously smoking for a week past, at intervals sending up dense columns of vapor, smoke or something else.

The anti-caucus Republicans of the Pennsylvania Legislature have appointed a committee of twelve to meet a similar committee of the caucus Republicans. The thirtieth ballot for Senator was taken Thursday without result.

A Russian sailor, named Ivanoff, on board the frigate Edinburgh, in Cherbourg harbor, France, having struck an officer, was sentenced to death, taken three miles out to sea, in order to be beyond French jurisdiction, and hanged to the yard-arm.

Garfield does not propose to be at the beck and nod of anyone, and especially will he not bend down to the Grant crowd. Conkling wanted to see him on particular business, and the Senator from New York had to go to Mentor. The coming President did not move a foot towards him.

Douglas, the Ute chief, who has been a captive in the guardhouse at Leavenworth, for about a year, was started for Fort Garland on the tenth, under the escort of Captain Keef. Schurz gave the order, but wanted the matter kept quiet, for fear the people of Colorado would kill Douglas.

In the last six months, twelve new poems have been written on "Antony and Cleopatra," each one of them commencing: "I am dying, Egypt, dying!" If they would give Egypt a rest and let her die in peace, or wander off to some woodland retreat and die themselves, a long suffering public would toss its hat in air and sing hosannas of joy.

The fire in the Chase coal mine, Victoria, B. C., is burning at a fearful rate. It has burned through the roof of No. 2 chamber and is now in the slate stratum above. It is causing great anxiety to the company and to citizens generally. It is impossible at present to tell the extent of the damage done, as the fire still rages in spite of great exertions to extinguish it.

The ominous hints thrown out a short time ago by Senator Conkling, that if the stalwarts, meaning himself and friends, did not receive due recognition from the Garfield Administration that there would be unrelenting opposition and warfare against it, seems to have its effect in the desired quarter, as Conkling has gone on a visit to Mentor, at the personal invitation of the President elect. So says the Ass. Press dispatches.

General Grant presided at a meeting of the International Commission at New York, Wednesday, and said the Exposition of 1893 in New York would be a great benefit to the country, and subscribers would receive back the money invested with a premium. He thought that the attendance would be four times larger than at the Centennial. Others spoke in favor of the project. It was decided to issue appeals in this behalf to business men.

Colonel Robert Ingersoll has had a splendid stroke of fortune at last. The Chief Justice of New Castle county, Delaware, has asked the Grand Jury to indict Ingersoll for the blasphemy uttered in a lecture entitled "What Shall I do to be Saved?" Ingersoll will be a most interesting martyr, and a trial for infidelity would be the climax of his ambition. It would give his books a greater sale, and there's no telling but it would open the way to his being chosen chaplain of the next House in preference to Mr. Beecher.

The N. Y. Times says: A suit in equity was begun Wednesday in the United States Circuit Court, the main object of which is to prevent the carrying out of the agreement of consolidation between the great telegraph companies, on the ground, substantially, that the consolidation will result in a violation of the specific contracts with a business injury and loss to the Direct United States Cable Company, limited. The action is brought by the last named company against the Western Union, Atlantic and Pacific, and the American Union companies, and the Union Trust Company of New York.

A. C. McFarlin, the Road Supervisor of Reno District, desires us to state to the public, that whenever any injury or obstruction occurs to the roads anywhere in his jurisdiction, he will be pleased to have a statement of the fact left at, or sent to the JOURNAL office, that he may be promptly informed of the trouble. He cannot be all over the roads at the same time, neither can he know of such injuries existing, by instinct. It will therefore be a great accommodation to him if our citizens will bear it in mind and let him know of the trouble as soon as possible after it occurs.

A detailed account was recently received of the barbarous shooting of a Jesuit Priest, one Father Gilliet, by order of President Banijos of the Republic of Guatemala. The story of his death was told with the most minute detail, and there seemed to be no reason whatever for doubting the fact until a few days ago, when a dispatch arrived to the effect that Father Gilliet publicly denies having been shot by anyone, and at the same time declares that he has never been in Guatemala in his life. It is apparent from this, either that the whole story was a hoax, or that some other Jesuit Priest was the victim of Guatemalan severity.

The Right Doctrine.

There is a hue and cry raised against the levying of assessments upon office-holders for political purposes. This is a Democratic principle established in the good old days of "Old Hickory" and Martin Van Buren. It was good Democratic doctrine then, and it is good now. Why should not men who hold office contribute a portion of their income towards defraying campaign expenses, when in the success of the party that placed them in position depends their bread and butter. We, who do not hold any position of honor or profit under the Government, donate to the party our time and talents and our money for its success, without any other hope of reward except that, that is to accrue to the whole people by having a good government, and these very men who reap the emoluments of office are indebted to the work of outsiders for their positions. Then why should they not contribute a portion of their salaries towards the expenses of a campaign that is to determine whether they will continue in their positions, or be compelled to make way for others? We think it right and proper to assess such men for money to carry on political campaigns. It is Democratic doctrine. It originated with a Democratic President, and it is not in the teeth of any Democrat in the land to find fault with the principle. Our Civil Service Reform may be stated in a few words: To the victors belong the spoils; rotation in office every four years, and the assessment of office-holders to raise means to defray the expenses incident to Presidential elections.

A GENTLE HINT.—In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75cts.

As the potato plant is propagated by its tuber after the manner of a bud or cutting, the effort made by the plant to produce its flowers and seeds must be a waste of power, which detracts from the desired crop—the tubers. We know an instance in which a six acre field of potatoes was tested to show the truth of this postulate. Three rows had the blossoms cut off and three rows were left intact alternately all over the field, and the produce of the rows which had been deprived of their flowers showed a very marked increase over that of the rows which had not been so treated. [Exchange.]

JOB PRINTING.—This office has every facility for doing all kinds of job printing. And inasmuch as all home industries should have the preference over all others, we should be pleased to receive orders at any time for that class of work.

Brevities.

Capt. A. D. Griffin, of the Antelope Mine, arrived in Reno from the East last evening.

The Senate has adjourned over until Monday. The Assembly will be in session to-day.

Gov. Kinkaid has appointed C. S. Martin a Notary Public, to reside at Reno, Washoe county, Nevada.

Loomis has just opened out a large stock of new goods, at his place on Commercial Row. Everybody, and especially the ladies, are invited to call and examine it.

The dance given last Thursday night by the Amateur Quadrille Band, at Theater Hall, was well attended, and proved a grand success. It was the best party of the season. All had a very sociable and enjoyable time.

Justice Young was considerably better yesterday, and he will probably, now, be about again in a few days. In the meanwhile Justice Borman, of Verdi, at his request, is in town, attending to the business, as authorized by law.

Miss Julia Bloch, of Reno, was married on the 9th instant, in New York City, to a Mr. Israel, a wholesale clothier of that city. Miss Bloch resided a number of years in Reno, where she has many friends who are pleased to extend to her the usual congratulations.

Above the Clouds.

Friday evening next, February 25, has been selected by the Reno Dramatic Company, for the production of Geo. M. Bakera new drama "Above the Clouds"; a play full of interest and abounding in thrilling situations and sparkling dialogue. The company is well and favorably known in Reno as substantially the same that played "Down by the Sea," and "Better than Gold" last Winter with such marked success, and has since received several valuable additions. They are in active rehearsal and the entertainment promises to surpass any before given. The cast will be announced in a few days.

Robbery.

Last Thursday evening about 10 o'clock, Mr. Black, of the Gem Saloon, stepped in Joe's, next door, to take a lunch, leaving the saloon alone for a few minutes, supposing that he would hear anyone that might enter there, as only a board partition divided the two places. He was not absent from his post to exceed ten minutes; but when he returned he found that during his absence about \$15 had been abstracted from the money drawer. Although he has his suspicions as to the thief, he has, so far, been unable to get track of the lost coin.

District Court.

In the District Court, yesterday, S. C. Hill was granted a divorce from Mary Jane Hill, Grounds, desertion. In the case of A. J. Smith et al vs. B. F. Leete et al, application for a mandamus, denied.

Vetey vs. Mitney, by stipulation of parties, judgment was rendered for plaintiff for \$300.

C. Coleman vs. Meyerstem defendant was granted five additional days to answer.

Run Over.

A man by the name of Jake Evans was run over by the west bound overland train at Boca, last Wednesday evening. He was found riding on top of one of the cars, and was made to get off then tried to swing himself under the car on the break beam; but in doing so fell beneath the car and was run over, crushing both legs. He was taken to Truckee where his legs were amputated; but he is not expected to recover.

The Asylum Fight.

The Pawning Asylum bill was introduced into the Assembly again yesterday by Mr. Soule, and it had friends enough to suspend the rule, and read it a second time by title. It was then referred to the Committee of the Whole. There is no question but that the bill will pass. It has more friends than ever it had.

The New Racquette.

We saw the racquette the other night. It is a lovely dance. The attitude and motions of the dancers are exorcising. No wonder it is such a favorite among the young ladies and gentlemen of high moral proclivities. It is just too lovely for anything, and it is so easy to learn. And it is so appropriately named although miss-spelled. It goes in the following style: The lady and gentleman stand facing each other, very close together. The gentleman's right arm is delicately placed around the lady's waist; his left hand clutching her right index finger, while her left hand is placed on his right shoulder. Finally the fiddles, after a few see-saws, strikes up "A dog ate a rye straw, rye straw, rye straw; a dog ate a rye straw, etc." At the sound of "dog" the dancers spring off to the gentleman's left two jumps, then back to the lady's left, two jumps, as though the "dog" was biting them from the rear, and they in their efforts to escape were trying to dodge past each other, but couldn't. After the two jumps to the lady's left they both halt an instant with their feet about fifteen inches apart, and bending their knees inward, towards each other, until they nearly touched. (We could only see the gentleman's knees, but suppose the lady did the same.) they both suddenly spring one jump to the lady's left and thus backward and forward keeping their feet and knees rigidly in the above position all the time; but with limber knee and hip joints they make a graceful swinging motion up and down to the time of the music. When the music stops a moment the dancers stop, and then at the sound of "dog" they both swing off again, and repeat the maneuver, over and over, until both become exhausted, the fiddles stop, and they sink into their seats in a perfect perspiration of rapture. That's the racquette. Oh, it is just too jolly, but it cannot be appreciated until seen. Seeing is all that is required to make one enamored, and fall into hysterical extacies over it. "We tumble to the racket."

Mid-night Bill Posters.

Some one, Thursday night stuck up a paper on the telegraph pole, at the corner of Virginia street and Commercial Row, that created considerable indignation as well as some amusement when discovered yesterday morning. Constable Avery who read the paper, informs us that it purported to be a statement, apparently from one of the members, of whom the "tar bucket brigade" is composed. It gives the names of eight or nine persons, giving their rank or official position in the organization. We do not pretend to say that the list is full or correct; although several of the persons named were in the China raid, it contains the names of several that were not; and omits several who were. The posting of the notice was uncalled for, and probably done out of pure mischief or deviltry. We understand that Wm. Getchel has it in his possession, where, undoubtedly, it can be seen by anyone who desires to see it. The article in last evening's Gazette concerning it, inadvertently, undoubtedly, gave the impression to some who read it that the instrument was a bogus "notice or warning" from "G01" to a number of well known and respectable citizens. That was not the case we are informed, by Mr. Avery, and John Hoy, who saw and read it. But was merely a list of who composed that organization. It is for the purpose of correcting this wrong impression that we give it more notice than it deserves.

N. S. A. M. & M. Society Bill.

EDITOR JOURNAL:—I notice that a bill has been introduced authorizing the Board of Commissioners to issue bonds to the amount of \$16,000, drawing eight per cent, per annum, for the purchase of the property and payment of the debts of the "Nevada State Agricultural, Mining and Mechanical Society," which I think should be amended, before it becomes a law. I do not believe it is properly within the province of the county Government to run such an institution, yet, if the majority of the taxpayers of this county desire so to do all right. I submit that the question of such action should first be voted upon by the taxpayers of the county, and with such an amendment, I am willing to abide the result. TAXPAYER.

Worth Trying.

From all we can learn, there seems to be no doubt but that there are a number of young men in Reno who make periodical visits to Chinatown for the purpose of smoking opium. We have a stringent law prohibiting this vice which certainly can be enforced. We suggest that a special officer be employed for that specific purpose. Let it be his sole duty to keep a watch over Chinatown and every white person who visits that quarter. Every boy who is found there after 9 o'clock at night, or about the opium dens at any time of day, can be arrested under the vagrant law. Sheriff Walker would gladly deputize any one the citizens may wish to employ, and in this manner we believe the vice can be suppressed in a legal way.

The Ass Will Bray.

The young champion of mobocracy, over the way not realizing that he is making a donkey of himself, and giving the disgrace which he pretends to be so anxious to conceal from the world for, the good of Reno undue prominence; and is unwittingly doing more to condemn his cause, and bring his friends whom he is so anxious to do a service in contemptible disrepute, than all the opposition and direct censure could do. Had he not protruded his nose where he had no business, unless he or those he serves were members of that disgraceful mob, no further publicity of the disgrace would have been given to the world, after our first article concerning it. We have indicated several times in the JOURNAL, that the matter had better be dropped. That we [have] had sufficient of it. The public have made up their minds regarding it, and all the wild assertions of the ambitious youth cannot change it. We gave a true account of the matter at first, so far as it went, but did not give half of the affair. The fact of the raid cannot be disputed. The broken doors, etc., were there next morning to testify to the truth of that portion of our account, the assertions of members of the mob to the contrary notwithstanding. We oppose such unlawful proceedings and are not the coward to try to suppress the fact, nor afraid publicity to our honest convictions; but will continue to do so hereafter whenever an occasion demands. We know it to be a fact that the perpetrators of that raid are heartily ashamed of it, and would like to see the thing now dropped. But as their "mouthpiece" will keep mouthing the matter we will use our discretion in replying. If the young man has any friends in town they should "suppress" him; and the persons whom he is trying to defend should at once squelch him. If he honestly thinks he has the community on his side, why still keep harping upon it!

Joe's rotisserie is generally crowded day and night. Such a popular place cannot go long unnoticed. Everything eatable constantly on hand, from roast ham to pickled chickadee's tongue.
